

# Prithyun jith. E

## Data Analyst

Aspiring to leverage my educational background in Commerce with Computer Applications, along with technical skills in Tally ERP, MS Office, Python, and MySQL, to contribute effectively to organizational goals. Seeking a challenging role that fosters professional growth and allows me to utilize my expertise in data science, public relations, and leadership to drive success.

### Professional Experience

#### Data Analyst Intern

Luminar Technolab, Calicut  
Sep 2024 - Present

- **Data Collection & Preparation:** Collect and preprocess raw data from multiple sources, ensuring accuracy, consistency, and readiness for analysis.
- **Data Cleaning & Transformation:** Utilize tools such as Excel, Python, and SQL to clean and transform data for analysis, addressing missing values, outliers, and other inconsistencies

### Educational Background

#### Bachelor of Commerce with Computer Application

College of Applied Science, Vazhakkad  
Calicut university  
Sep 2021 - Oct 2024

### Project

#### A study on the effect of petrol price hike effected on two wheeler owners with special reference to Vazhakkad Grama Panchayath.

- The study focuses on understanding how the hike in petrol prices affects the daily lives and financial stability of two-wheeler owners in Vazhakkad Grama Panchayath.
- Two-wheelers are a popular mode of transportation, especially in rural areas, making them highly sensitive to changes in fuel prices

### Loan Approval Prediction

- Preprocessed data, handled missing values, and performed feature engineering to improve model performance.
- Built and trained models (Logistic Regression, Random Forest, XGBoost) to predict loan approvals with X% accuracy.
- Integrated the model into a web-based or API-driven application for automated decision-making.
